A Moving Experience For Integral Systems

Integral Systems, Inc. (Nasdaq: ISYS) has announced their corporate headquarters have now relocated from Lanham, MD, to Columbia, MD.

Based in Lanham for more than 15 years, the company gained an additional 46,000 square feet of new space in which to grow its expanding global satellite technology business. The new office space is being leased by *Corporate Office Properties Trust (COPT)*, which also supports Integral's properties in Chantilly, VA and Colorado Springs, CO. Later this year, **Integral Systems** will pursue a *U.S. Green Building Council Leadership in Energy and Environmental Design (LEED)* certification for the new building. When designing the facility, Integral Systems sought to maximize efficiency, create the healthiest workplace environment possible, and minimize environmental impact. Integral Systems develops integrated technology solutions for satellite interfaced systems for government and commercial customers. The company has served the U.S. Air Force, NASA, National Oceanic and Atmospheric Administration and satellite operators around the globe for more than 25 years. Integral Systems has completed more than 200 satellite missions for communications, science, meteorological and other applications.
